

MTBI/Millwright/Mechanical Assembler

Sanyo Canadian is an industry leader in the design and development of automated assembly and welding systems for the Automotive Sector. We offer a full range of inhouse services from concept, through design to build and installation/on-site services.

We are seeking Full-Time, Permanent MTBIs, Millwrights and Mechanical Assemblers (Machine Builders)

Duties:

- Fit and assemble parts and sub-assembly components to build special purpose machinery
- Plan and carry out mechanical assembly work from drawings - new build and modifications
- Provide mechanical support during debug/integration and acceptance
- Participate in tear down and shipping of the equipment

Qualifications:

- Licensed Machine Tool Builder Integrator (MTBI) or Millwright
- Minimum 5 years of experience building specialized machinery for the automotive industry would be an asset
- Familiar with machine fabrication, pneumatics, hydraulics, and welding
- Experience interpreting mechanical drawings and CAD

Requirements:

- Able to work under deadline pressure
- Ability to travel to customers' site for installation and troubleshooting
- Ability to read blueprints
- Weekend/shutdown/holiday installation required
- Valid Drivers License
- Welding experience is beneficial

Benefits: (Employer Paid)

- Extended Health/Dental and Vision Care
- Life Insurance and AD&D, STD and LTD (after three months)
- RRSP Match
- Tuition Reimbursement
- Yearly Christmas Party and Golf Tournament
- Discretionary Bonus

Schedule:

- Day shift
- Monday to Friday
- 8:00 am to 4:30 pm
- Weekends and Statutory Holidays when required
